Case 5594

**Election of Species**

Claims 1-32 are pending the above-referenced application. Previously, restriction to one of the following inventions was required under 35 USC 121: (I) Claims 1 – 23, drawn to a guide tube assembly, classified in class 254, subclass 134.3ft; or (II) Claims 24 – 32, drawn to a process for inserting a guide tube into a conduit, classified in class 254, subclass 1. In a response submitted November 29, 2005, Applicant respectfully elected Group I, containing Claims 1 – 23.

In the Office Action of December 8, 2005, Applicant was asked to elect a single disclosed species for prosecution from (a) the group of materials set forth in Claim 3 and (b) the group of materials set forth in Claim 6.

From the group set forth in Claim 3, Applicant selects "nylon" as the chosen species. From the group set forth in Claim 6, Applicant selects "polyvinylidene fluoride" as the chosen species. Applicant believes such election sufficient to satisfy the requirements of the Office.

Respectfully submitted,

Date: January 9, 2006
